## WHAT CAN I LEARN FROM THIS SECONDARY RESEARCH?

What is the impact of educational technology on language teaching?

## WHAT DOES IT FIND?

- Technology applications have a large effect on English language teaching.
- The use of technology is more effective than traditional English language teaching.
- There is not much difference between male and female students in the outcome of learning the language with technology.

## HOW CAN I USE THE FINDINGS IN MY TEACHING?

- Using technology in class requires teachers to be well familiar with technology beforehand.
- It is highly recommended for teachers to have a plan "B", in case the technology is out of service.
- Teachers should look at technology as a medium, and adapt their practice with the technology.

## KEY TERMS

### Educational technology

Combination of human and non-human resources to improve learning and teaching

## WHAT EVIDENCE IS SUMMARISED?

60 studies
